

Imagine You & Me

Friday, December 14, 2018 11:28 PM

Chorus:

A

Imagine, you and me

~~Imagine, how happy we'd be~~

~~How happily~~

Imagine (how) we could be

Walkin' hand in hand along

A lake where lovers stroll along

Along the lake where we belong

Together loving all night long

Together, happy, lost in love

The magic of our love to come

waking up with the morning sun

Imagine the moon above

So much in love

Imagine each passionate kiss

Imagine on a night like this

Imagine oh the way we'd kiss

The Passion on a night like this

Where no one but the moon would see

The way I held you tenderly

Imagine a night like this where

~~I'd give you all the love I got~~

~~And you'd say baby please don't stop~~

And days when I've got frown

You'll take and turn it upside down

If one of us should have a frown

The other turns it upside down

If you wanna see what's happy as can be

Imagine You & Me

Bm

A

When you think of love as something meant to be

When you think about how good a love can be

Imagine you & me

Imagine you & me

Imagine, you and me
Imagine, how we'd be free to
Love each other nights and then
(We'd) (To) greet the dawn and (with) love again
Imagine
Love each other all night long
Sleep and love again at dawn
Imagine, just take my hand
When you think of love that goes on endlessly,
Imagine you and me.

Bm C#m D E A
~~Close your eyes and dare to dream how it would be: Imagine you and me~~
When you close your eyes and dream of what could be: Imagine you and me
Side by side together for eternity
Imagine you and me
When you think one day those doors of life
When you think of walking
Imagine You & Me
When you see yourself walking with someone side-by-side into eternity
Side by side with someone for eternity
Imagine You & Me
And one day when those golden doors swing wide and you wonder who'll be by your side
And walk with you for all eternity
And walk through them for all eternity
And walk through them hand in hand for eternity
Imagine You and Me
When you think about how happy Life could be
Imagine you and me

We're in each other's arms at dawn
Our thoughts together all day long

love for you grows stronger every day
There's a destiny,
that's what I believe
that reaches up beyond the stars
Nothing to match

or take that place
couldn't ever be

Couldn't take the place of
Ever go this far
Grateful for each day for
I couldn't ask for more than
you and me were made for what I've always prayed for
a love like ours

Think of you constantly
It fills my heart with joy
Lessons learned and love kept

Had a dream I'd find, the kind of true love they write songs about
And I'd love her back not make her sad without a doubt
But more every day that old dream seemed to fade
But something inside me kept saying
Don't give now cause your mama is praying
That you'll take a good look in the mirror
Something good's comin' nearer to you
And I said to myself, put your pain on the shelf

VERSE

That day in September I'll never forget;
I turned around, your eyes and mine met
Then I said 'hello' and you did the same
A spark was ignited that led to the flame

VERSE

We glanced at each other like neither one knew
I caught you looking, so did you
You'd smile at me smiling at you
We'd smile at each other not saying a thing
Without really knowing we'd started the flame

BRIDGE

And it just burned brighter and each day it grew
With true love that's what it will do
Hearing your laughter seeing your smile,
All made my living worthwhile
Ohhh

VERSE

Seasons will come and seasons will go
You had your path, and I had to go
Sometimes with life comes sorrow and pain.
But it couldn't diminish or put out the flame

Instrumental

BRIDGE But destiny

Back in your arms back in your life
Grateful each day I'm alive
Being here with you

VERSE

Well darling you're with me and this I know
I'll never let you go
We've now come full circle you're with me again

I have you here and will never let you go
We never gave up on our love or the Flame

We both exchanged glances like young kids will do
I caught you looking at me, so did you
We tried to pretend like we didn't see
You'd smile at me smiling at you
Two hearts started beating when love called their name.
My heart started beating when you called my name.
~~But it kept on burning, brighter it grew~~
We glanced at each other like neither one knew
Then Destiny brought
Seasons will come changing with time
You had your path, I had mine
~~But we never~~ And though life can sometimes bring sorrow and pain
Your heart and mine
That day in September you changed my life
That day in September
But it kept on burning brighter each day
Brighter with passing day
~~It never could dim or put out the flame~~
When you became a part of my world
Warming out hearts with
We both exchanged glances like young kids will do

The first time we heard
The first time I met you and first heard you speak
I felt the earth moving under my feet
From that moment my life was never the same
My life in a moment forever changed
The first time I ever heard you call my name
The first time I ever heard you say my name
We dealt with the bring sorrow and pain

The touch of your hand soft on my skin
Awakens a love deep within
Drawing us closer
Makes me again come alive
Girl
You're my whole world
That day in September I'll never forget I turned and saw you your eyes and mine
met

My heart began beating when you said my name.
Two hearts begin beating when love called their name
Two hearts began beating that day as one

VERSE 4:

We each said 'hello' and there was a spark
That kindled a flame and lit up the dark

The touch of your skin the sigh lets me know
You'll always be mine, I'll never let go
Eternally yours, full circle we came
And grateful forever
Thank God for the flame
I stroke your hair on a moonlit night
Thankful we never gave up on our dreams

I have you here and will never let you go
We never gave up on our love or the flame

The flame just burned brighter; as our love grew
Sometimes with life comes sorrow and pain
All our prayers answered
With you tonight

Together for the rest of our lives
Ohh

Verse 1

Who was on my mind first thing when I woke up today
And who's sweet name was on my lips as I would pause to pray
Whisp'ring like a memory deep within my soul
Reaching out to touch me in ways I've never known

CHORUS:

It was you
It was you
It was you
It was you.

And who was in my
deep within my soul
I still remember I love her so
I can still remember how
Whisp'ring like a memory deep within my heart
When I peeked in to see

Whisp'ring like a memory from long ago
And who was in my every thought and prayer I seemed to say
Burning like a candle all aglow
who make my dreams come true
It was you who made my dreams come true

Who's the one who told me she would never leave my side
Baby don't worry it's all gonna be alright
I want you tonight.
Kept my head on straight and feet flat on the ground
When friends couldn't be found
Through the good and bad times ups and downs
Who's the one who brought me a lifetime of happiness
Who's the one who taught me the meaning of success
Baby it'll be alright

Calling to my heart from so sweet a memory
It was you who brought me happiness
There's a special place within my heart
Always on my mind forever in my heart

There's a little place within my heart that is with me every day
a place where all my memories are softly tucked away
it's the perfect place at special times for me to go
for words cannot explain how much I miss you so
I will hold you in my heart forever
In my heart in my thoughts in my life
Each morning when I wake up, and each night I go to sleep you are the first and last thing on my mind

Some Things Never Die

Sunday, January 06, 2019 12:40 PM

Well life comes and goes - baby's born - old folks move on
Like it's all part of some greater plan - we all do the best we can
But there are some things that never end -
They go on and on again
To live another day
Like the love we've had from the start
When you first stole my heart
And from that first moment we knew
That our lives were sewn together - stuck like glue
And from that first kiss
we knew it'd always be like this
For the rest of our lives
Oh yeah, we had ups and downs, turn arounds,
But honey we both knew down deep inside,
Somethings never die.....

CHORUS

Like a love that has no end,
Goes on and on forever
Sweeping everything in it's path
There's nothing it can't out last
And even if we tried,
we know we just can't hide the fact that
That our love is stronger each and every day, come what may
It will stand the test of time and survive
Yeah, Darling our love's forever alive...
Some things never die.....

It will stand the test of time and stay alive
Yeah, Darling eternal love survives
Some things never die.....

VERSE 2

From that first 'hello' we knew; our lives were sewn together; stuck like glue
And the time that you and I first kissed we wanted it to always be like this

Yes there are some things that never end
They go on and on again to live another day
Oh yeah, we had ups and downs, turn arounds,

That first time we kissed and we wanted it, to always be like
this
And yeah we had our ups and downs, we had our share of
turnarounds,
We had some uphill climbs
But our love was strong, never once gave in
There was no doubt at all that we would win
Honey we knew deep inside,
Some things wi never die.....

CHORUS

Like a love that has no ending,
Goin' on and on forever
Sweeping everything away in its path
There's ain't nothing it can't outlast;
And the future's ours; there's no lookin' back
Day by day our love's stronger that's a fact
It will stand the test of time and stay alive
Yeah, Darling eternal love survives
Some things never die.....

BRIDGE

You're my life and I'm your world that's how it's gonna be
Hold me tight I won't let go for all eternity

CHORUS

Like a love that has no ending,
Goin' on and on forever
Sweeping everything away in its path
There's ain't nothing it can't outlast;
And the future's ours; there's no lookin' back
Day by day our love's stronger that's a fact
It will stand the test of time and stay alive
Yeah, Darling eternal love survives
Some things never die.....

VERSE 1

Life is fragile so they say; babies born and old folks fade away
Like it's all part of a greater plan; we all do the best we can
But there are some things that never end;
They go on and on again and again to live another day
Like the love we've had from the very start
When you looked at me and captured my heart
Honey I knew deep inside,
Some things will never die...

CHORUS

Like a love that has no ending,
Goin' on and on forever
Sweeping everything away in its path
There's ain't nothing it can't outlast;
And the future's ours; there's no lookin' back
Day by day our love's stronger and that's a fact
It will stand the test of time and stay alive
Yeah, Darling eternal love survives
Some things never die.....

VERSE 2

From that first 'hello' we knew; our lives were sewn together; stuck like glue
That first time we kissed and we wanted it, to always be like this
And yeah we had our ups and downs, we had our share of turnarounds,
We had some uphill climbs
But our love was strong, never once gave in
There was no doubt at all that we would win
Honey we knew deep inside,
Some things will never die.....

CHORUS

Like a love that has no ending,
